

# Leslie<sup>®</sup> Speakers

# 247 & 247RV

- ◆ Single channel, double rotor.
- ◆ Decorator styled cabinet.
- ◆ 40 watts continuous undistorted output main channel.
- ◆ 15-inch bass speaker, frequency selective treble speaker.

Beauty in design... beauty of sound: the Leslie 247. The handsome cabinet, designed by one of America's most famous stylists, blends handsome hardwoods and fine fabrics into a tasteful piece of furniture that will enhance the most elegant home. The sound system inside is identical to the popular Leslie 147. A "cross-over" network separates the sounds into high and low frequencies, channeling the highs to spinning horn rotors and the lows to a large drum rotor. With the rotors turning at fast speed, an exciting tremolo is created... while the slower speeds produce an ethereal chorale. The physical separation of the speaker cabinet from the organ console speaker creates a unique stereophonic effect—a duet of music in motion. The Model 247 RV contains all the components of the 247, plus a reverb generator and independent reverb channel. This reverb system utilizes a separate 15 watt amplifier and two additional stationary speakers. Both the 247 and 247 RV blend these electronic and acoustic effects into a new and exciting dimension of sound.

## Specifications

Dimensions: 30" high, 39½" wide, 19¼" deep.  
Amplification: Measured in continuous undistorted output (RMS) 40 watts.  
Controls: Switch for fast (tremolo) and slow (chorale). Separate speaker selector for switching between built-in console speaker, Leslie speaker or both together. 3 position reverb control (off-medium-full).  
Electrical: 110-20 V, 60 Cycle AC.  
Weight: 137 pounds.  
Guarantee: One year from date of purchase.
