

# Leslie Speaker

# 600

- ◆ For two or three channel organs
- ◆ Independent handling of flute, string/complex voices and pedal channels
- ◆ Adds unmatched realism and pipe-like qualities to any multi-channel organ

Designed specifically for multi-channel organs, the Leslie Model 600 divides the organ's output into three distinct sections... each handled in a way that best enhances the musical tone qualities. 1) *The Flute Section*. A horn rotor for the high notes. Spinning drum rotor for the mid-ranges. A precision stationary speaker for the lows. 2) *String/Complex Voice Section*. A unique new electro-mechanical-optical tremolo generator with its own amplifiers. The famous "space generator" for random animation of sound and a startling multi-rank effect. 3) *Pedal*. A full-fidelity 15" stationary speaker with a solid "pedal point"... and a sound that is both stirring and true. All three basic sections of the Leslie Model 600 combine to create a panorama of musical effects... and a breathtaking musical experience!

## Specifications:

Dimensions: 30 $\frac{3}{4}$ " high, 43 $\frac{3}{4}$ " wide, 20" deep.

Controls: Tibia-Tremolo, Chorale, Off  
Main-Tremolo Off/On  
Multi-rank Celeste Off/On

Amplification: Tibia 40 watts RMS  
(Continuous undistorted power), Two  
string amplifiers 30 watts RMS each,  
Pedal amplifier 50 watts.

Electrical: 117 V, 60 Hz.

Weight: 175 pounds.

Guarantee: One year from date of  
purchase.
