You'll need to!

The PRO 900. The 825. Two new speakers from Leslie. The 825 punches out 70 watts continuous undistorted sound, the PRO 900, a stunning 100 watts. So don't get too close: these two are dynamite.

The PRO 900 and 825 look pretty good, but they're not soft. The toughened cabinets and rugged components will take a big pounding on the road. They're equipped with recessed handles and castors, so it's no sweat moving them from one gig to the next.

But there's more to Leslie speakers than sheer muscle: spinning rotors project your music horizontally in all directions, creating a dazzling 'sound in motion' effect; 3-speed motor control produces an amazing range of tonal variations. The Leslie 825, with solid state amplifier and heavy duty extended range speaker, all in a portable package; the PRO 900, if you're really in earnest - get these tremendous speakers on your side. But be warned: they could bring the house down.

Please rush me the name and address of my nearest Leslie dealer.
